

## Solar Flare

### Verse 1

The sun is a star that shines in the day.  
It's big and it's hot and it's so far away.  
The sun is round, all around like a ball.  
It gives us light and helps flowers grow tall.

### Verse 2

The sun and the rain are best friends, you know.  
When they meet and hold hands they make a rainbow.  
In a warm sunny sun, I smile the day long,  
And twirl and jump up and sing silly songs.

### Verse 3

I love how a day at the beach makes me giggle  
As I push my toes in the sand with a wiggle.  
Puppies are fond of the sun and the sand,  
But don't want to burn while they're getting a tan.

Remember! Never look straight at the sun,  
And wear suntan lotion while having your fun!

Use these lyrics to help children learn the words  
to the songs on the *AstroPuppies in Space* DVD.
